Oxford, a collegiate University

What are Colleges, and how are they related to the University?

“Local government”

“National government”

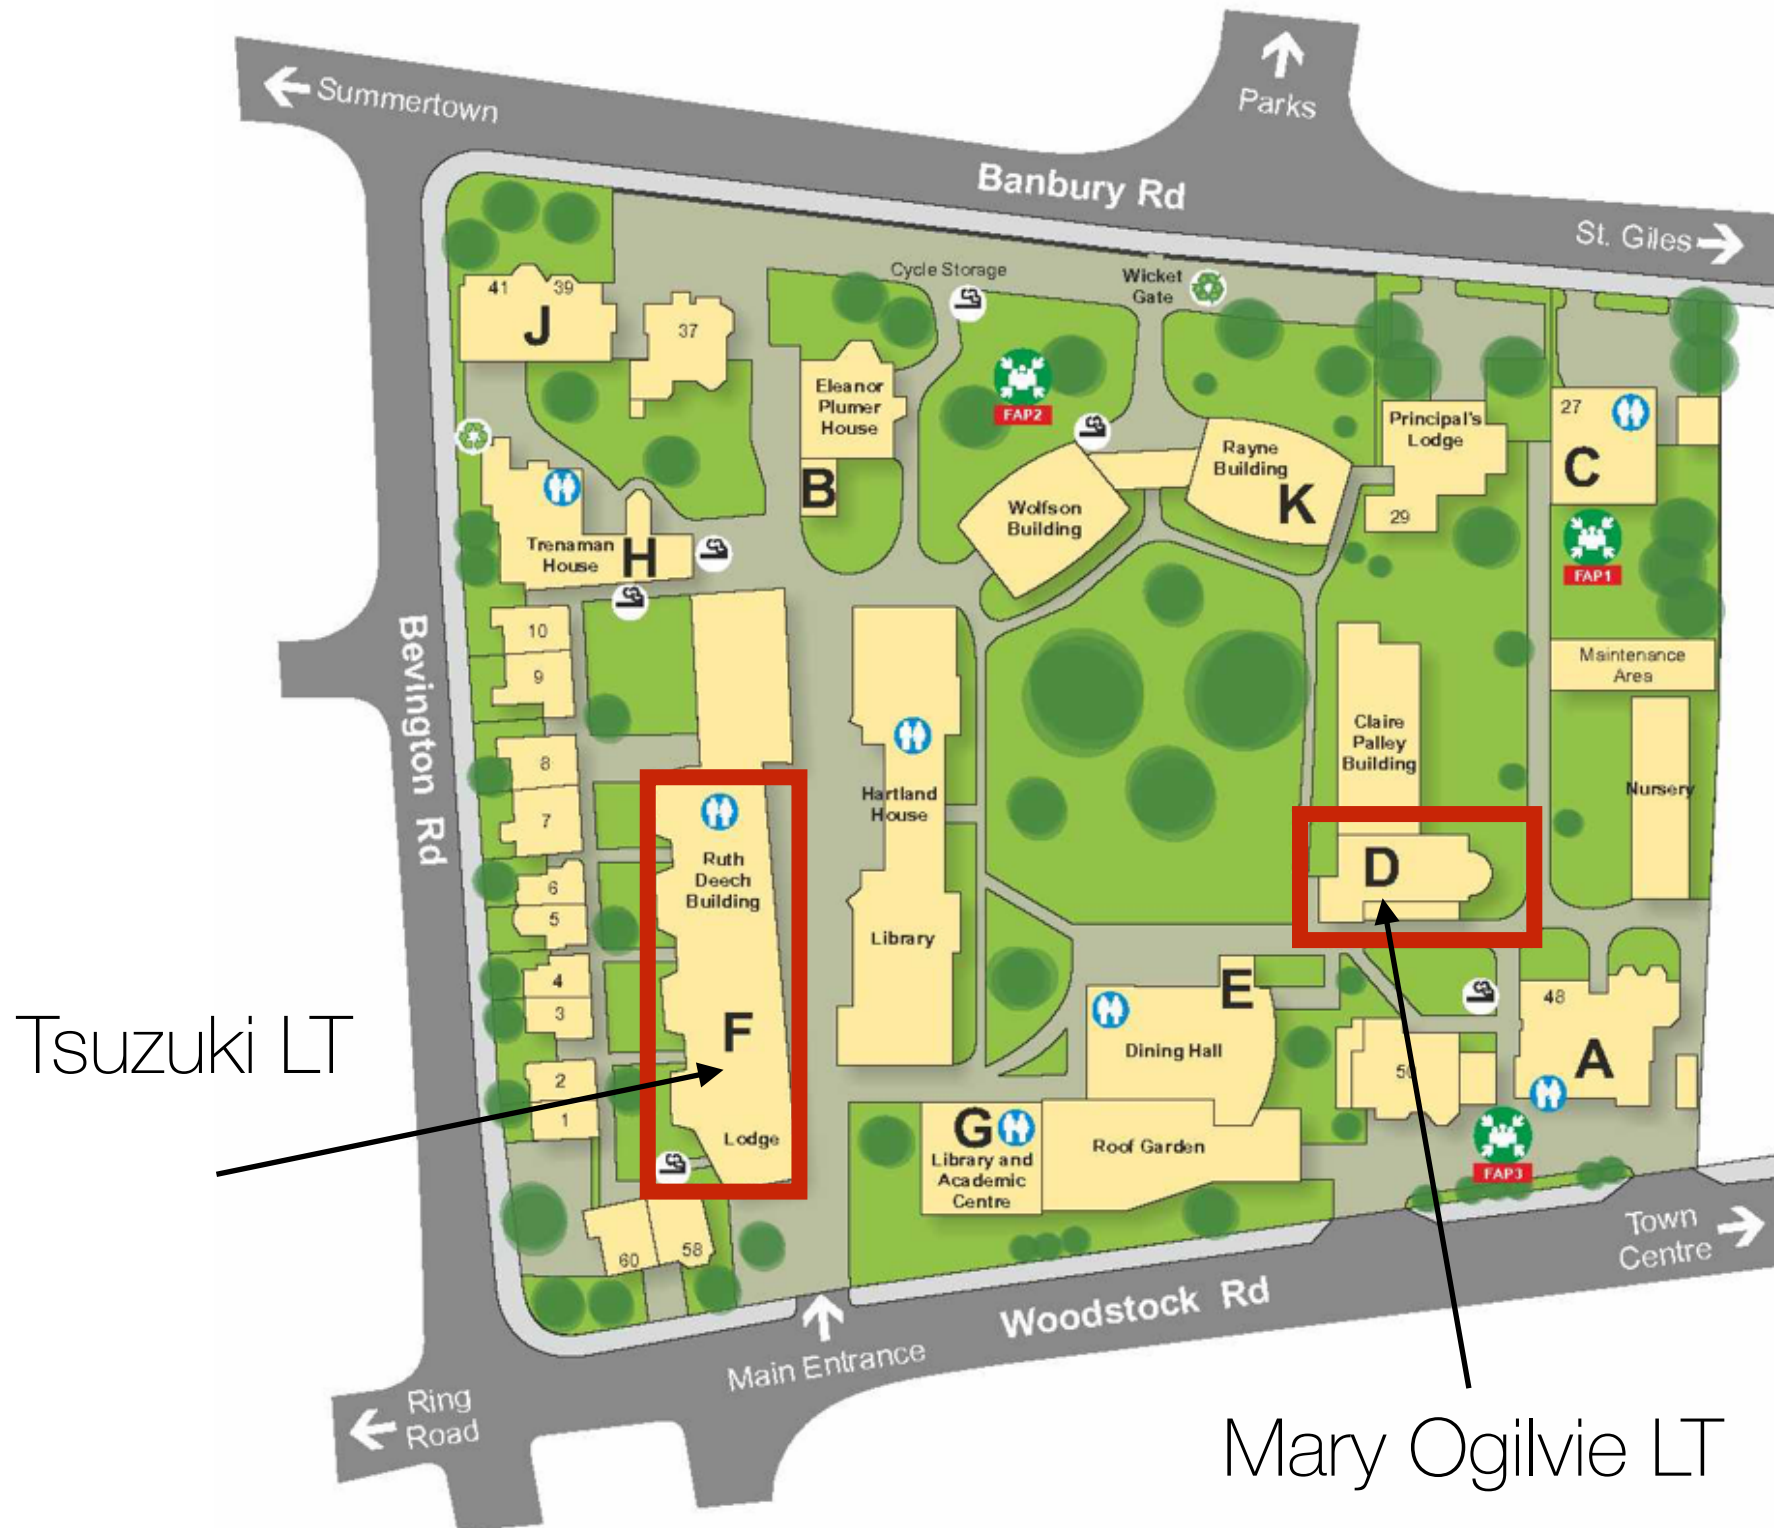

All students become members of the University, and they also belong to (one out of ~40) of the Colleges.

Lectures and examinations normally organised at the University level, whereas smaller teaching groups (tutorials) are organised by the Colleges.

Colleges often offer accommodation and meals, but more importantly serve as a hub of student social life.
